Categories: Additional Info

Hi Hannah,

Thank you for getting back to regarding the proposed school. With regard to the request for a Site Contamination/Remediation Report, I would like to enquire as to whether you are happy to deal with the land contamination issue with reference to the information in the relevant ES chapter (Chapter 9) and that you are content to allow validation (in respect of this specific issue) of the planning application as is, which will then allow for consideration of the land contamination ES chapter information by the relevant consultees and will allow for discussions on how best to address through the course of the consultation process.

Regards,

Ben Lander
Planner
