ROAD SAFETY AUDIT STAGE 1

Scheme Title	University of Warwick, CP16 Access Junctions: Kirby Corner Road Access Junction
Client	ARUP
TMS RSA Report Ref No:	TMS 13521
Road Safety Audit Team	SP/AS

Problem Identified (Paragraph No)	Problem Accepted (YES/NO)	Recommendation Accepted (YES/NO)	Alternative measure (describe)
2.1	To be drawn to the attention of the Highway Authority	For the Highway Authority to consider	Whilst this may be a maintenance issue for the Highway Authority we do not consider that the proposals within the planning application will impact on this issue and the matter raised is not part of our design. We are not generating any additional trips to the University as a whole and we are not increasing the level of motorcycle parking at this location. We will draw this matter to the attention of the Highway Authority and they may wish to deal with the issue at the same time as the modifications to the access are carried out or at a time to suit their maintenance programme.
2.2	To be drawn to the attention of the Highway Authority	For the Highway Authority to consider	Whilst this may be a maintenance issue for the Highway Authority we do not consider that the proposals within the planning application will impact on this issue and the matter raised is not part of our design. We are utilising the existing access at this location and are not widening the carriageway. We will draw this matter to the attention of the Highway Authority and they may wish to deal with the issue at the same time as the modifications to the access are carried out or at a time to suit their maintenance programme.

Signed	 PA Smith BSc MIGHT MICE CEng
Job Title	Associate Director Arup
Date	25/4/2017
