**TOWN & COUNTRY PLANNING ACT 1990
THE TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT
PROCEDURE) (ENGLAND) ORDER 2015**

Application No. : **FUL/2019/1304**
Registered on : **29/05/2019**
Applicant : **Mr Neil Scoresby**
Re Site at : **Outside Salvation Army
Upper Well Street**

Description of Development: Installation of electronic communications apparatus supporting Wi-Fi antennas in the form of an InLink.

Delegated Decision on 24/07/2019

Coventry City Council as Local Planning Authority **REFUSE** permission for the development proposed in your application for the following reasons: -

1. The proposal is contrary to Policy CC1 of the Coventry City Centre Area Action Plan, Policies C2, AC2, AC4 and DE1 of the Coventry Local Plan 2016, and the advice contained within the National Planning Policy Framework and associated

Application Number FUL/2019/1304

Coventry City Council

National Planning Practice Guidance by reason of its siting and appearance in that the proposal would result in:

- a) the introduction of incongruous and unnecessary visual clutter located in a recently improved public realm area resulting in a severe and negative impact on the appearance of the built environment to the detriment of the visual amenities of the area;
- b) direct conflict with legible pedestrian routes within a high quality newly created public space close where it would obstruct visibility and pedestrian flow close to the highway and pedestrian crossing to the severe detriment of highway and public safety; and
- c) direct conflict with supporting safer communities, ensuring development reduces opportunities for crime and the fear of crime and providing safe public spaces.

In determining the application Coventry City Council have made the decision in a positive way to foster the delivery of sustainable development, working proactively with applicants to secure developments that improve the economic, social and environmental conditions of the area. The decision has been taken having regard to the impact of the development, and in particular to the policies and proposals in the adopted Coventry Local Plan 2016 set out below, and to all relevant material considerations, including the National Planning Policy Framework, and Supplementary Planning Guidance.

The City Council have worked in a seamless and timely manner to undertake the necessary liaison and negotiation with the applicant, third parties and statutory consultees (at the application and pre-application stages) to look for solutions which seek only high quality sustainable development.

Policy AC2: Road Network

Policy AC4: Walking and Cycling

Policy C2: Telecommunications

Policy CC1: Coventry City Centre – Development Strategy

Policy DE1: Ensuring High Quality Design

INFORMATIVES

- For the avoidance of doubt, this decision relates to the following drawings, letters or associated documentation that may have been submitted with the application.

Location Plan

Unit Dimensions V4

InLink Product Statement

Planning Design and Access Statement v2.0

Existing and Proposed Views

- You are advised that if your proposal involves works covered by the Party Walls etc Act 1996. You are recommended to seek independent advice. Booklets are available from the Planning Advisory Desk & HMSO.

- **Protected species**

A number of European Protected Species are found in Coventry. Please be aware that any development may have implications and / or adverse impact on species and habitats which are protected by the Wildlife & Countryside Act 1981; the Habitat Regulations 1994; the Conservation of Habitats & Species Regulations 2010 and by other European Legislation. The permission given by this notice does not override the protection afforded to these species and their habitats. Please be aware that it is the developers / landowners / contractors responsibility to ensure that any work being carried out will not harm any protected species. For more information on protected species please visit <http://www.naturalengland.gov.uk>.

If evidence of protected species is found, work should stop immediately while Natural England (01453 764450) is contacted for advice on the best way to proceed. If any conditions concerning protected species are attached to this decision you are advised to contact the Planning Department at Coventry City Council on ecology@coventry.gov.uk before commencing development or submitting any necessary discharge of conditions applications.

Coventry City Council

Appeal Rights: -

If you are aggrieved by the decision of the City Council to refuse permission for the proposed development subject to conditions, you can appeal to the Department of Communities and Local Government under Section 78(1) of the Town and Country Planning Act 1990 (as amended). An appeal must be made within **six** months of the date of this notice.

Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for the giving of a Notice of Appeal, but will not normally be prepared to use this power unless there are special circumstances.

The Secretary of State may not consider an appeal if it appears that the local planning authority could not have granted planning permission for the proposed development due to statutory requirements, to the provisions of a development order or to any directions given under an order. The Secretary of State will not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

If permission to develop land is refused, whether by the City Council or an appeal by the Secretary of State, the owner of the land may claim that the land has become incapable of reasonable beneficial use in its existing state and cannot be rendered capable of reasonable beneficial use by the carrying out of any development which has been or may be permitted. In these circumstances, the owner may serve a purchase notice on the City Council requiring the Council to purchase the interest held in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused by the Secretary of State on appeal or on a referral of the application to the Secretary of State. The circumstances in

Head of Planning

Coventry City Council

which such compensation is payable are set out in Section 114 & 120 and related provisions of the Town and Country Planning Act 1990.

- **MINING INFORMATIVE**

The proposed development lies within a coal mining area (either an area of old workings or active and future workings, or an area of proved coal resources) and therefore could be subject to current coal mining or hazards resulting from past coal mining. Such hazards may currently exist, be caused as a result of the proposed development, or occur at some time in the future. These hazards include:

- Collapse of shallow coal mine workings.
- Collapse of, or risk of entry into, mine entries (shafts and adits).
- Gas emissions from coal mines including methane and carbon dioxide.
- Spontaneous combustion or ignition of coal which may lead to underground heating and production of carbon monoxide.
- Transmission of gases into adjacent properties from underground sources through ground fractures.
- Coal mining subsidence.
- Water emissions from coal mine workings.

Applicants must take account of these hazards which could affect stability, health & safety, or cause adverse environmental impacts during the carrying out their proposals and must seek specialist advice where required. Additional hazards or stability issues may arise from development on or adjacent to restored opencast sites or quarries and former colliery spoil tips.

Potential hazards or impacts may not necessarily be confined to the development site, and Applicants must take advice and introduce appropriate measures to address risks both within and beyond the development site. As an example the stabilisation of shallow coal workings by grouting may affect, block or divert underground pathways for water or gas.

In coal mining areas there is the potential for existing property and new development to be affected by mine gases, and this must be considered by each developer. Gas prevention measures must be adopted during construction where there is such a

Coventry City Council

risk. The investigation of sites through drilling alone has the potential to displace underground gases or in certain situations may create carbon monoxide where air flush drilling is adopted.

Any intrusive activities which intersect, disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) require the prior written permission of the Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes.

Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action. In the interests of public safety the Coal Authority is concerned that risks specific to the nature of coal and coal mine workings are identified and mitigated.

The above advice applies to the site of your proposal and the surrounding vicinity. You must obtain property specific summary information on any past, current and proposed surface and underground coal mining activity, and other ground stability information in order to make an assessment of the risks. This can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com
