## FESTOON LIGHTING

### DISCRIPTION

High quality E27 LED festoon bulb for all 240V belt and harness lighting.

Available in a variety of colours, including white, warm white and green, this model is the highest specification available. The bulb is designed with both quality and the environment in mind, consuming 0.5 watts of power. Each bulb has 7 super bright LEDs within it, which produce a vibrant, modern glow whilst consuming 97% less energy compared to traditional incandescent 15 watt bulbs.

Please note: this lamp is not compatible with the dimmer controller.
