5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

Has the work or change of use already started? Yes No

5. Description of the Proposal

If yes, please state the date when the work or change of use started (date must be pre-application submission) DD/MM/YYYY

21/09/2020

Has the work or change of use been completed?

Yes No

If Yes, please state the date when the work or change of use was completed (date must be pre-application submission)

26/10/2020

6. Existing Use

Please describe the current use of the site

UHCW is an NHS hospital. The development area is unused hardstanding at the back of the site, away from the main public areas

Is the site currently vacant?

Yes No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

Yes No

Land where contamination is suspected for all or part of the site

Yes No

A proposed use that would be particularly vulnerable to the presence of contamination

Yes No

7. Materials

Does the proposed development require any materials to be used externally?

Yes No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material):

Walls	
Description of existing materials and finishes (optional):	N/a
Description of proposed materials and finishes:	External walls are of a durable one-piece construction with high-performance, low-maintenance plastisol-coated galvanised steel cladding to offer protection against fire, extreme weather and accidental damage. Internally, the walls are of vinyl-faced plasterboard, providing a wipe-clean finish.

Roof	
Description of existing materials and finishes (optional):	N/a
Description of proposed materials and finishes:	Outstanding insulation is provided by the construction of the roof. The roof deck is of one-piece construction and is impact resistant. It is covered with solar-reflective, profiled aluminium-zinc coated steel to reduce heat gain. Internally, the polyester-coated galvanised steel ceiling is designed to prevent condensation problems and has a low-maintenance finish.

Windows

7. Materials

Description of existing materials and finishes (optional):	N/a
Description of proposed materials and finishes:	The windows have PVC-U frames and are double-glazed with low energy glass for optimum thermal performance. Draught and condensation problems are minimised by effective weather seals and the low thermal conductivity of the window frame and glazing materials. Windows in critical locations are glazed with toughened safety glass as standard with a variety of other glazing available as an option. Ultima buildings offer protection against theft and vandalism, with a wide range of security options.

Doors	
Description of existing materials and finishes (optional):	N/a
Description of proposed materials and finishes:	Steel-faced doors have an insulating core that minimises heat loss. The anodized aluminium frame also incorporates draughtproof weather seals.
